

my way

sedus

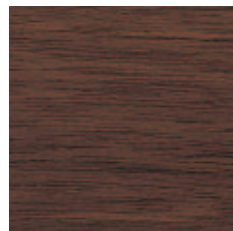

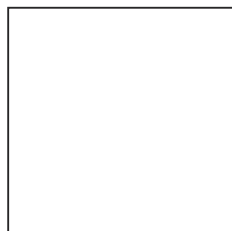

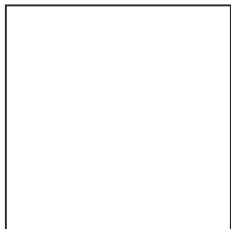

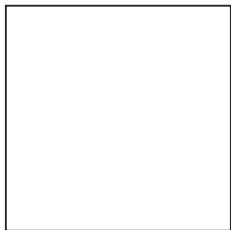

A hallmark of successful people is their ability to stay true to themselves, their unerring belief in those values which are important to them and a commitment to going their own way. Success is individual – it cannot be achieved by imitation or by following in other people’s footsteps. The outstanding comfort of my way, as a swivel and conference chair, is for all those who have the courage to go their own way every day. The chair’s visual harmony and proportion is an expression of new emotional office culture: **Place 2.5**

**For expressive personalities.**

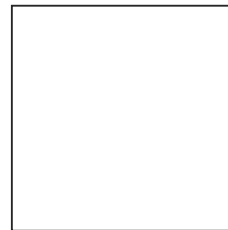

With my way, the designer Michael Kläsener has created a comfortable and unconventional seating range which meets even the toughest of demands. The design is as uncomplicated and straightforward as its owner. my way: in command and unmistakable, striking and prestigious, modern and full of surprises.

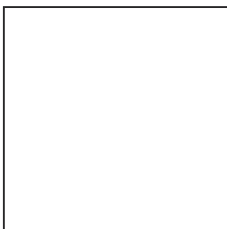

**With impressive character.**

Optimising. Rationalising. Restructuring. Life in the boardroom is tough – the wish for comfort and convenience, for style and elegance is therefore more than justified.

An uncompromisingly good conference chair, my way makes even long conferences a pleasure to attend. The flexible backrest and seat-depth springing guarantee dynamism and comfort. The leg frame on glides has a rotating column and automatic return movement. Five-star base with castors and fixed column is optionally available.

The swivel chair offers first-class comfort and dynamism. The large opening angle allows you to sit back, relax and enjoy the synchronised movement of the seat, backrest and integrated armrests. The lumbar support is height- and depth adjustable. The controls are elegantly integrated into the armrests.

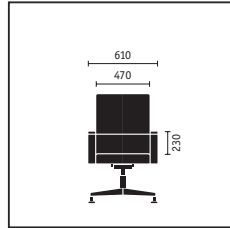

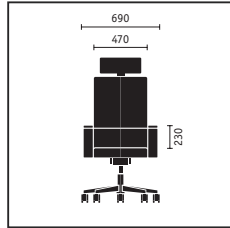

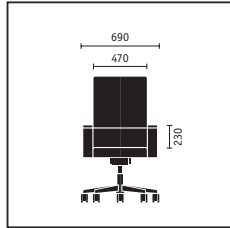

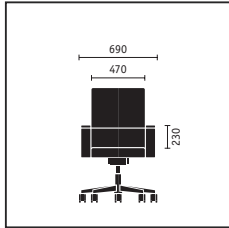

A headrest with soft upholstery is optionally available for the model with high backrest. The height can be adjusted by 50 mm on a chromed support.

A high-quality upholstery finish underlines the excellence and comfort in every model. To ensure sufficient space in conference systems, the armrests of the conference chair are more slim-line to preserve elegance and style when used in row formation.

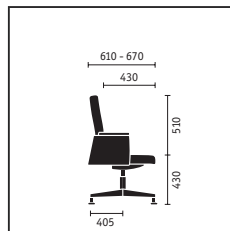

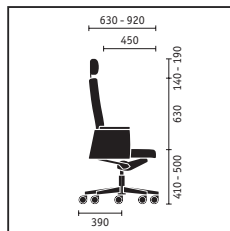

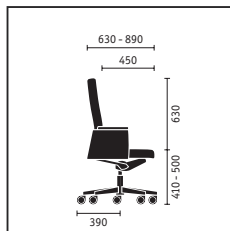

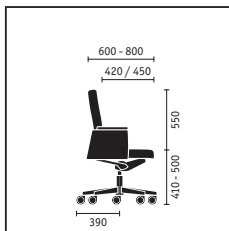

Swivel chair with medium backrest, with high backrest, with high backrest and headrest, conference swivel chair.

The recyclability, quality and timeless design of our products are a key part of the environmental protection philosophy at Sedus. [www.sedus.co.uk](http://www.sedus.co.uk)
