

## Ubi-takeoff

Ubi-takeoff is a workspace system & complete office solution. Designed with form & function, Ubi-takeoff simplifies office based tasks creating a unique user experience. Modular by design, the furniture forms around the office space providing function in every aspect. Surface based tasks surrounded by the Ubi storage system create divides & define space where required. Support soft seating integral to the Ubi system allows ease of collaboration or change of sitting position. Ubi-takeoff is the office.

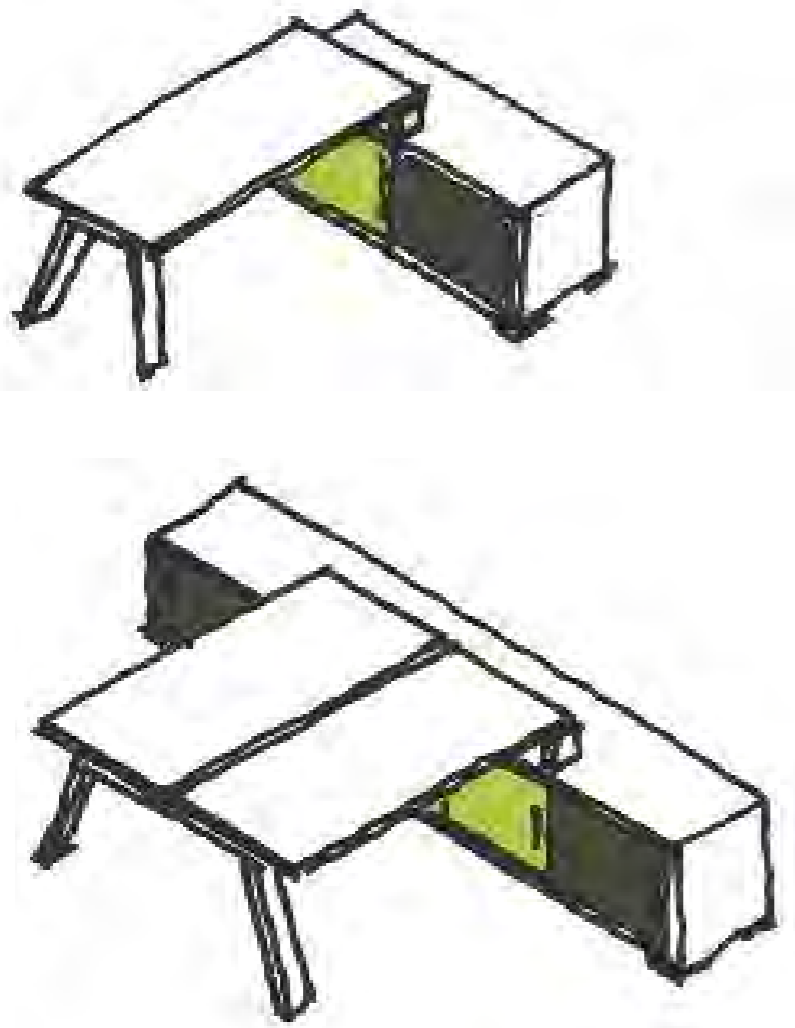

# Takeoff

Takeoff standalone desks & shared bench desks can easily be configured to attach to elements of the Ubi storage system.

Slim 18mm melamine (density 620 Kg/cbm, class E1 with a low emission of formaldehyde according to ISO regulations, class of reaction to fire 2) desktops join perfectly to the Ubi storage carcass. Takeover has several desk-side & under-desk storage options.

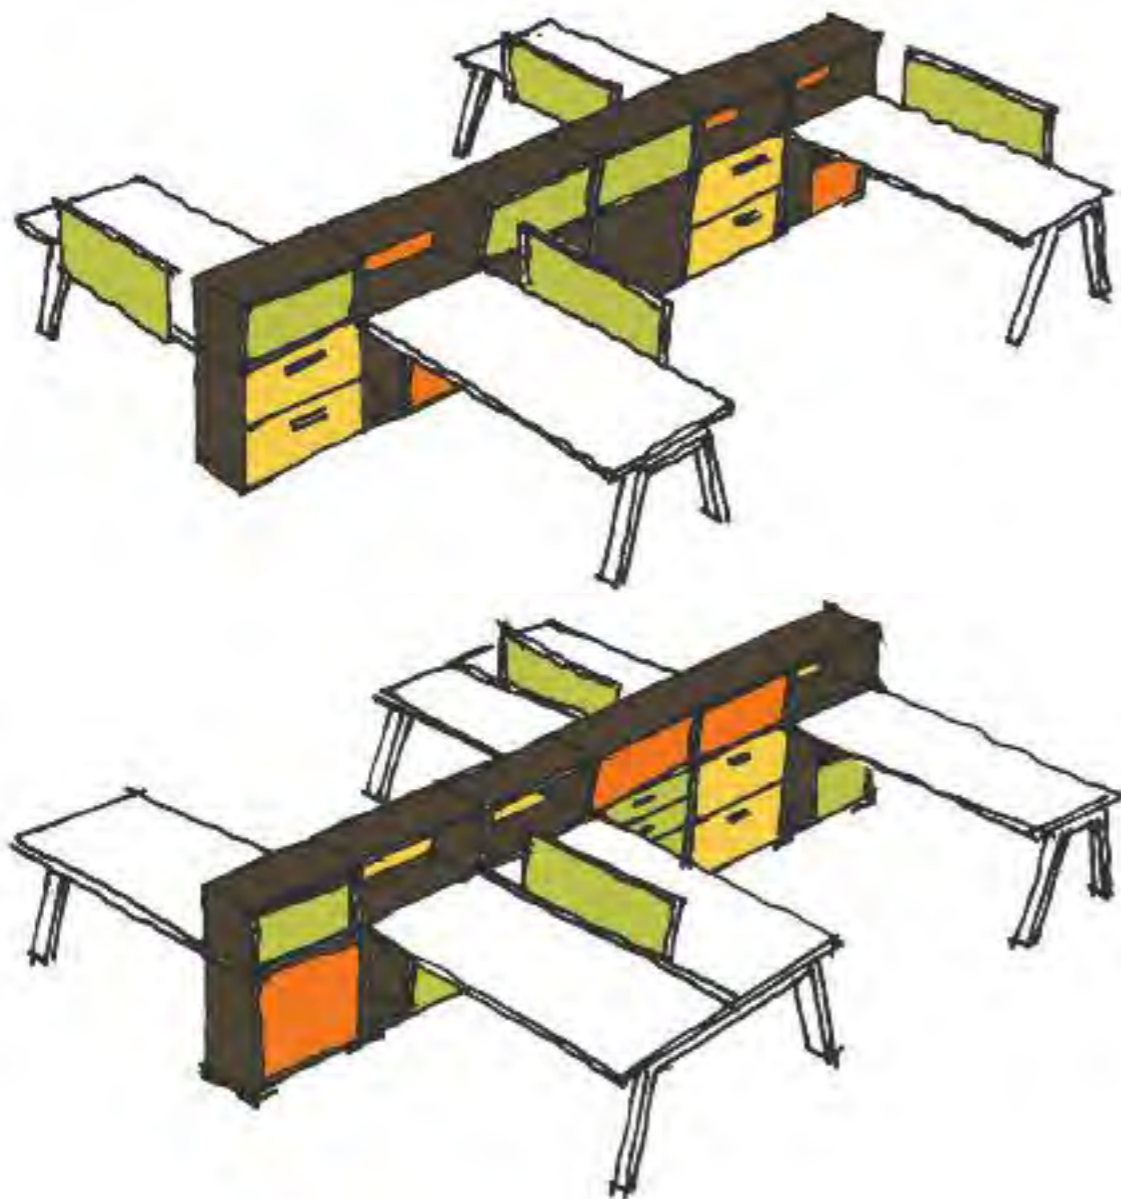

# Ubi-takeoff

Create layouts & divide workplaces by combining Ubi & Takeoff. The need for partitioning or dividing screens can be reduced by Ubi storage, saving floor space. Ubi-takeoff is a cable managed furniture system thus removing the need for expensive cable feed solutions.

## M10 cabling

In order to plan the workspace, the M10 container was created. Equipped with a patented sliding system for the work tops & for the containment & distribution of electrical & data cables. The M10 is a modular container that can also be equipped with a rail housing the sliding mechanism & the cabling that can be inspected through flap doors.

## Ubi elements

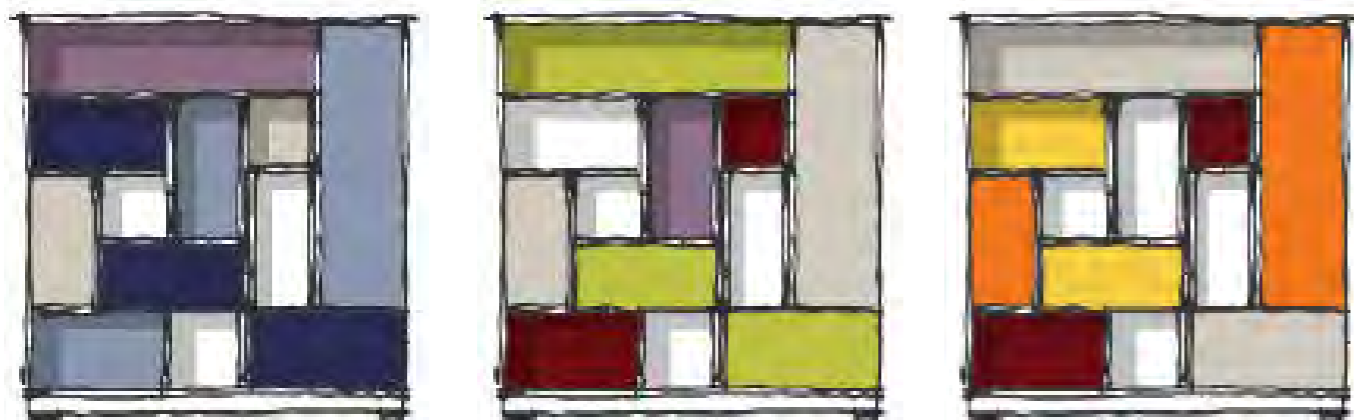

Ubi storage elements include all modern storage requirements. Elements include: Lateral or suspension filing, double, flap or tambour door storage, pinnable or magnetic panels, drawers, castors, cable access & above desk compartments.

# Design space

Ubi storage is a collection of modular storage elements which allows countless configuration & colour choice. Create combinations to suit the working environment or your brand.

# Mobile space

Dividing workspace is easily achieved with Ubi standalone configurations. Ease of the modular storage is further enhanced when specified as mobile storage. Support castors located on the storage frame allow the user to change the workspace as & when required.
