

Unitable | desk

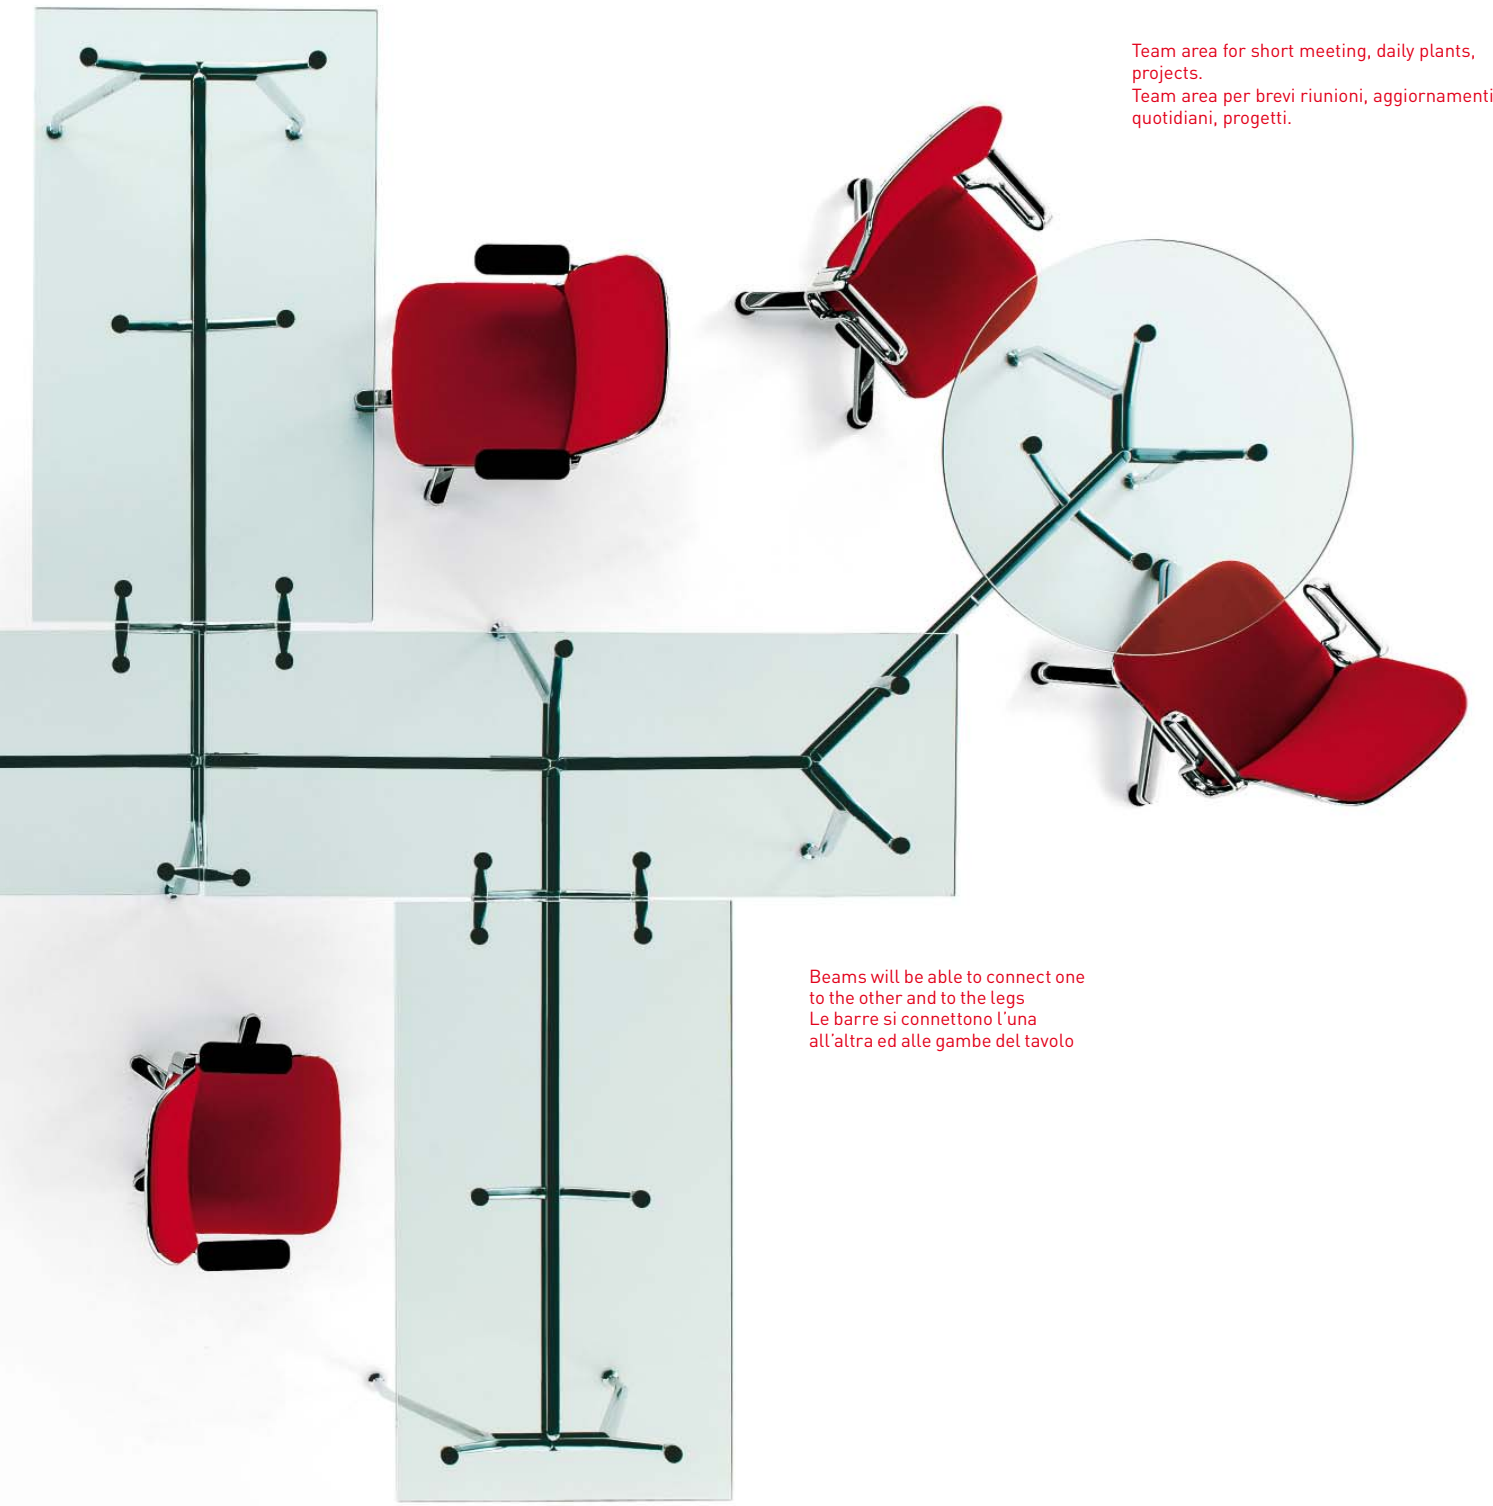

Tops available in different finishes: clear glass, underpainted glass, laminate and veneer.
Piani disponibili in diverse finiture: cristallo trasparente, cristallo retro verniciato, laminato ed essenza.

Aluminium beams are available in different lengths.
Le barre in alluminio sono disponibili in diverse lunghezze.

Side table for printer, display, etc
Tavolo di servizio per stampante, monitor, ecc

Team area for short meeting, daily plants, projects.
Team area per brevi riunioni, aggiornamenti quotidiani, progetti.

Beams will be able to connect one to the other and to the legs
Le barre si connettono l'una all'altra ed alle gambe del tavolo

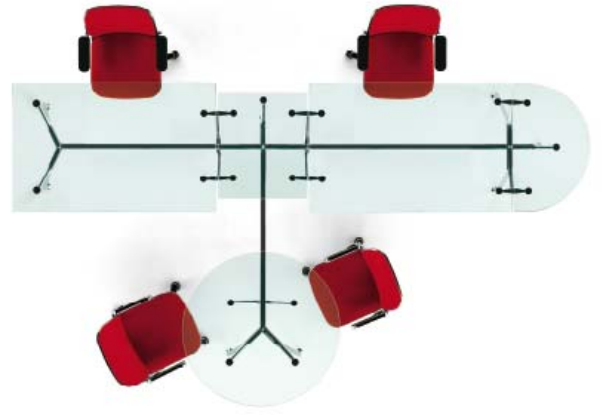

A project designed around new ways of working in the office environment: flexible and dynamic, innovative and modern. Unitable is a system of tables which offers countless interpretations: it responds to a variety of professional needs with maximum efficiency to become an executive desk, a double desk, a multi-station work area, and a meeting table of various sizes.

Un projet consacré à la nouvelle façon d'organiser le travail de bureau: éclectique et dynamique, révolutionnaire et moderne. Unitable est un système de bureaux à interpréter de différentes façons: selon les besoins professionnels, il apporte toujours une solution extrêmement efficace. Il peut être un bureau de direction, un bureau double, un espace de travail à plusieurs postes, une table de réunion de divers formats.

Un proyecto dedicado a la nueva manera de organizar el trabajo en la oficina: flexible y dinámico, innovador y moderno. Unitable es un sistema de mesas que puede interpretarse de varias maneras: según las exigencias profesionales, responde siempre con la máxima eficacia, convirtiéndose en escritorio de dirección, escritorio doble, zona con múltiples estaciones de trabajo, mesa de reunión de varios tamaños.

Un progetto dedicato al nuovo modo di organizzare il lavoro in ufficio: flessibile e dinamico, innovativo e moderno. Unitable è un sistema di tavoli che può essere variamente interpretato: a seconda delle esigenze professionali, risponde sempre con la massima efficienza, diventando scrivania direzionale, scrivania doppia, zona di lavoro a molteplici postazioni, tavolo riunione di diverse dimensioni.

Technical description

Unitable is a system of desks and modular meeting tables.

The structure is composed by horizontal beams in extruded aluminium and legs in die-cast aluminium. The structure can be polished or black painted.

Structure

The main beam is in extruded aluminium with polished or painted finish and with a decorative black element that goes along longitudinally. Beams are available in 16 lengths which goes from a minimum length of 316 mm to a maximum of 2198 mm.

Legs are made of die cast aluminium with polished or black painted finish. Glides are in chromed plastic material and are height adjustable for the positioning of the table. Connectors allow to join the beams and the basements with different inclinations in order to allow several configurations.

Brackets

Supporting brackets are made of die cast aluminium with polished finish and can be positioned along the main beam.

Top

The tops are available in different modular sizes and finishes.

Clear glass with a thickness of 15 mm, with rounded angles; acidated underpainted glass in white colour with a thickness of 15 mm; natural oak wood or American black walnut characterized by a 28 mm thickness and by a solid wood edge; laminate tops are available in three colours: white, light grey and dark grey. Top thickness is 22 mm and the perimeter edge is in shockproof plastic material.

Description technique

Unitable est un système de bureaux et de tables de réunion modulables.

La structure consiste en des poutres horizontales en aluminium extrudé et en un piètement en aluminium moulé sous pression. Ces éléments peuvent être peints ou polis brillants.

Structure

Poutre porteuse en aluminium extrudé avec finition anodisée brillante et élément de décoration longitudinal noir. Les poutres existent en 16 longueurs, de 316 mm à 2 198 mm. Le piètement est en aluminium moulé sous pression poli, avec des patins en plastique chromé réglables en hauteur pour mettre le bureau de niveau. Les plaques de raccord permettent d'unir les poutres et les piètements en leur donnant plusieurs inclinaisons, dans le but de former une multitude de configurations.

Étriers

Étriers de fixation en aluminium moulé sous pression poli pour positionner les plateaux dans n'importe quelle position sur la poutre porteuse. Éventuel taquet en aluminium moulé sous pression poli pour le support et la fixation de deux plateaux mis côte à côte.

Plateau

Les plateaux existent en plusieurs formes, finitions et dimensions modulaires. Verre transparent de 15 mm d'épaisseur, avec bord façonné et angles arrondis; verre de 15 mm d'épaisseur avec face arrière peinte en blanc, face avant sablée; en chêne rouvre naturel ou en noyer noir d'Amérique avec bord en bois massif de 28 mm d'épaisseur; en laminé de 22 mm d'épaisseur en trois couleurs: blanc, gris clair, gris foncé avec contour en plastique anti-choc.

Descripción técnica

Unitable es un sistema de escritorios y mesas de reunión modulares.

La estructura está compuesta por viguetas horizontales en extrusión de aluminio y patas de aluminio fundido a presión, que pueden ser pintadas o acabadas con un tratamiento de abrillantado.

Estructura

Vigueta portante en extrusión de aluminio con acabado anodizado brillante y elemento decorativo longitudinal de color negro. Las viguetas se encuentran disponibles en 16 longitudes: de 316 mm a 2198 mm. Las bases que apoyan en el suelo están realizadas en aluminio fundido a presión con acabado brillante; terminales de apoyo al suelo en material plástico cromado, regulables en altura para la nivelación de la mesa. Las placas de unión permiten acoplar las viguetas y las bases con varias inclinaciones, para realizar innumerables composiciones.

Bridas

Las bridas de soporte de las mesas pueden colocarse en cualquier posición a lo largo de la vigueta portante; son de aluminio fundido a presión con acabado brillante. Eventual espesor de ajuste para el apoyo y la fijación simultánea de dos tableros juntos, siempre en aluminio fundido a presión y pulido.

Tablero

Los tableros se encuentran disponibles en diferentes formas y acabados, y están realizados en varias dimensiones modulares. Cristal transparente espesor 15 mm, con borde perfilado y ángulos redondeados; cristal pintado por la parte posterior blanco espesor 15 mm, con acabado arenado por el lado de apoyo; de roble natural o nogal negro americano con borde de madera maciza espesor 28 mm, en laminado espesor 22 mm en tres colores diferentes: blanco, gris claro, gris oscuro, con borde perimetral de material plástico antichoque.

Descrizione tecnica

Unitable è un sistema di scrivanie e tavoli riunione componibili.

La struttura è formata da travi orizzontali in alluminio estruso e gambe in alluminio pressofuso, e possono essere verniciate o con trattamento di lucidatura brillante.

Struttura

Trave portante in alluminio estruso con finitura anodizzata brillante ed elemento decorativo longitudinale di colore nero. Le travi sono disponibili in 16 lunghezze da 316 mm a 2198 mm. I basamenti a pavimento sono realizzati in pressofusione di alluminio con finitura lucida; finalini di appoggio a pavimento in materiale plastico cromato, regolabili in altezza per il livellamento del tavolo. Le piastre di connessione consentono di unire le travi ed i basamenti con varie inclinazioni, per realizzare innumerevoli configurazioni.

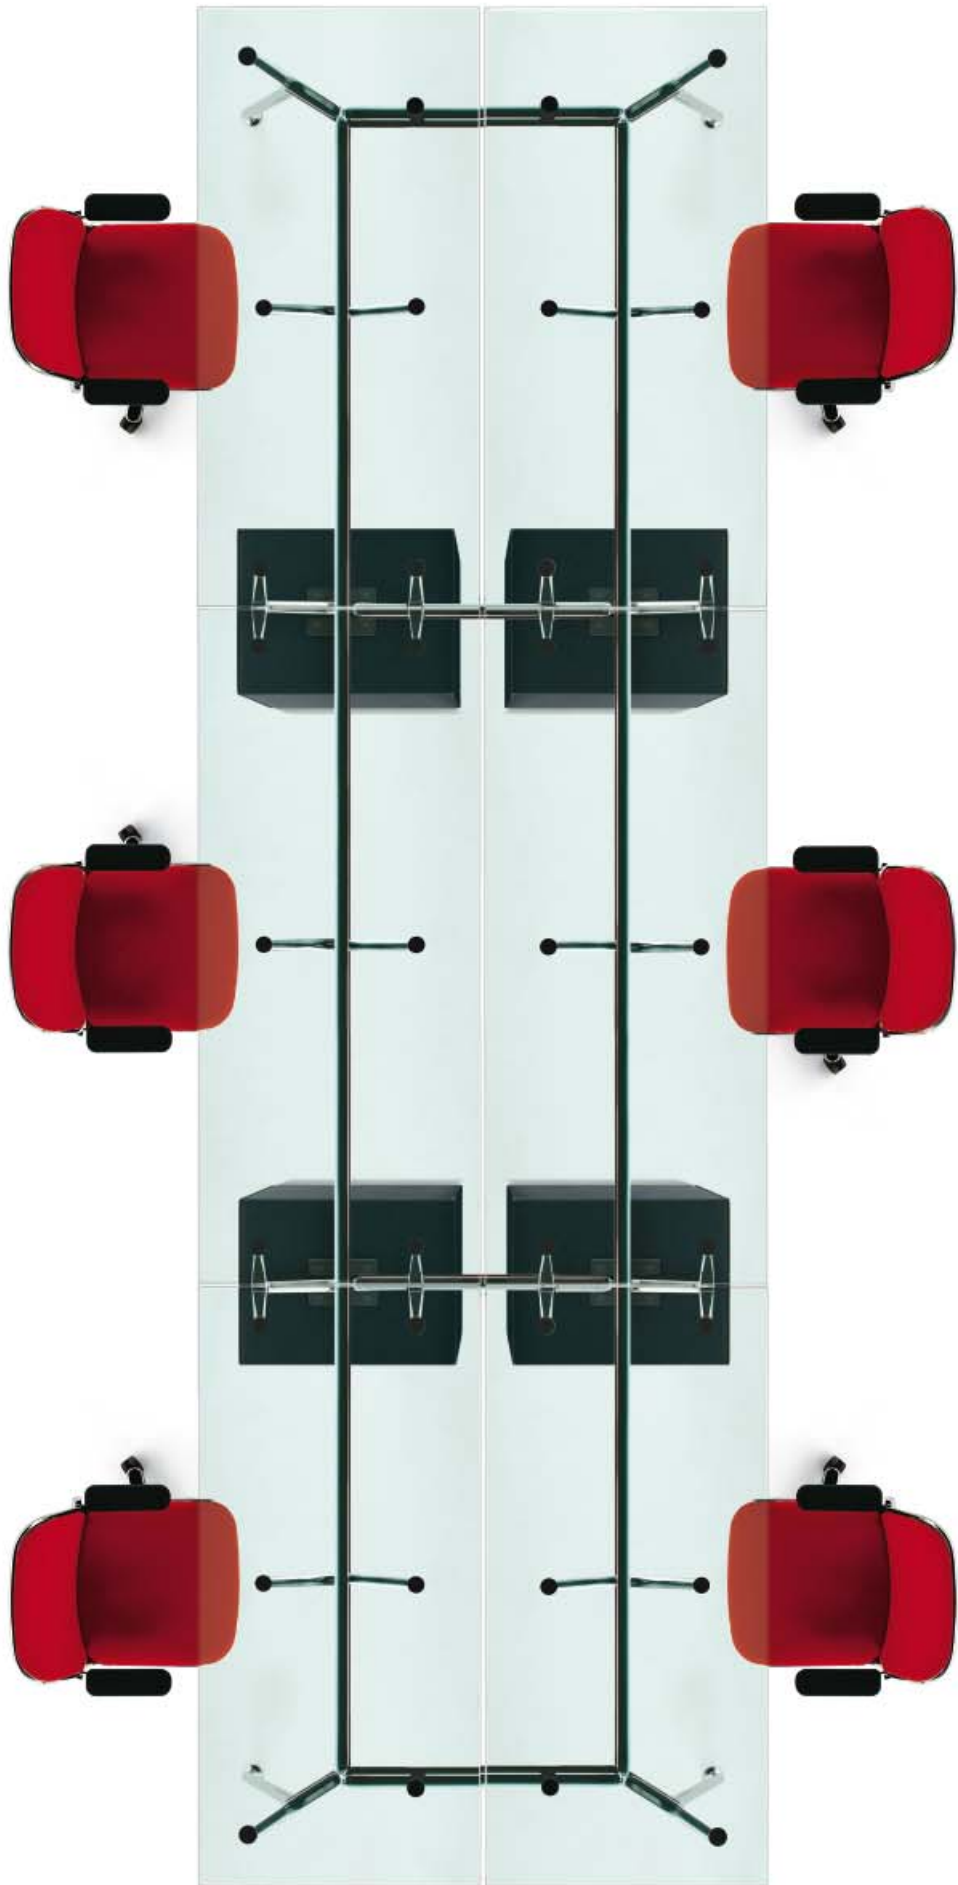

Staffe

Staffe di sostegno dei piani lavoro posizionabili in qualunque posizione lungo la trave portante, in alluminio pressofuso, finitura lucida. Eventuale blocchetto per l'appoggio ed il fissaggio contemporaneo di due piani accostati, anch'esso in alluminio pressofuso lucidato.

Piano

I piani sono disponibili in diverse forme e finiture, e vengono realizzati in varie dimensioni modulari.

Cristallo trasparente spessore 15 mm, con bordo sagomato e angoli arrotondati; cristallo retroverniciato bianco spessore 15 mm, con finitura sabbiata sul lato di appoggio; in rovere naturale o noce nero americano con bordo massello spessore 28 mm; in laminato spessore 22 mm in tre diversi colori: bianco, grigio chiaro, grigio scuro, con bordo perimetrale in materiale plastico antiurto.
