

Track Work

Meeting Seating

a modern meeting seat

This companion product to Track Lounge is designed for use at work height, whether relaxing during a meeting or for more upright working on a laptop. Its design answers the need for a comfortable yet visually light, fully upholstered chair that works equally well individually or in a larger group. The simplicity of Track means it can achieve dramatic variations in character, depending on the fabric specification and it can be specified with glides or castors.

Track Work Meeting Seating

Track 01

Track Lounge

Upholstery

a stylish

upholstery option

This design answers the need for a comfortable upholstered lounge chair with a light footprint. It shares the same language as Track Work but is designed as a lounge chair. Can be used as a group around an occasional table or combined with larger Landscape pieces, such as Perimeter or Boundary.
