

FourReal® Flake

Designed by Anders Nørgaard

Shapes & combinations:

Half Elipse

Elipse

Diamond

Create and recreate, again and again, the meeting room design with FourReal® Flake tables. These innovations are built on the ideas of democratic design and developed to meet the needs for agile and flexible solutions for people to meet at eye level. FourReal® is an inspiring framework for cooperation and mobility for any working environment.

The tangible design and organic shapes and curves makes FourReal® Flake a natural gathering point, whether for 4 or 10 people. Four Real® tables can be used to create a dynamic and fun space as the options can be connected and reconfigured to create a whole new room design. The tables are designed by Nørgaard Design.

Room in Room & FourReal®

Designed by Four Design

By simply clipping the FourReal® space-in-space partition to the FourReal® table you create small intimate work areas in larger rooms. The clever design allows one person to quickly create a workspace with improved acoustics and a sense of privacy.

Features

Board with decor laminate with ABS edging

138 x 138 cm

Acoustic panels and wipe boards available

The Room in Room can be separated into parts and recycled
